

Acupuncture

Acupuncture and traditional Chinese medicine (TCM) are good options to combine with western medicine to give you well-rounded care.

At East West Health Services, our mission is to create optimal wellbeing through holistic TCM services and education. Our health and wellness team includes licensed acupuncturists, herbalists and massage therapists. We also partner with a range of allopathic and complementary health practitioners, researchers, and educators to support our patients in a holistic approach to health.

Our Services

We take pride in knowing and acknowledging that each patient is unique and comes to us with various conditions. That is why we never take a one-size-fits-all approach. We will develop a customized treatment plan to meet your needs and for you to achieve the best possible outcome.

Your treatment plans may include acupuncture, cupping, moxibustion, therapeutic massage, herbal medicine, and nutrition therapy.

Visit East West Health Services' website for more information.
