

Radiology / Imaging

Staffed by a team of dedicated board-certified radiologists and licensed technologists, our imaging department strives to provide precise and quality medical imaging services and procedures to our in-patients, emergency room patients, and out-patients in a comfortable and compassionate environment. Our department is well-equipped with state-of-the-art equipment to provide routine and specialized radiological services to providers and patients.

Our Services

Inpatient Imaging Services

Patients at our hospital have access to an array of diagnostic imaging services, including:

- Magnetic resonance imaging (MRI)
- Computed tomography (CT)
- Mammography
- Nuclear medicine
- Ultrasound

- X-ray
- Fluoroscopy
- DEXA/Bone Density
- Interventional radiology

Outpatient Imaging Services

Our San Francisco Chinatown location provides the broadest range of routine and advanced diagnostic services, utilizing state-of-the-art equipment at Chinese Hospital.

Our Imaging Center in Daly City offers advanced imaging technology available in a community-based setting, including X-ray, Ultrasound, DEXA/Bone Density, and Mammography. Call us to schedule an appointment.
