

在東華醫院輸注治療中心，您的健康是我們的首要任務。我們致力提供優質的護理服務，確保您在整個治療過程中感到舒適。

什麼是輸注治療？

輸注治療是一個安全的醫療程序，它通過柔軟的導管或針將無法口服的藥物、營養液等液體直接注入靜脈中。通常，導管或針會插入靜脈或皮下組織，最常見的部位是手臂或胸部，這被稱為輸注部位。

專業護士團隊

我們的護士團隊精通多種語言、擁有豐富的輸注經驗及專業的癌症及其他疾病知識，確保您能獲得全面及優質的輸注服務。

服務範圍

我們提供全方位的服務，能夠滿足各種輸注需求，包括：

- 化療
- 靜脈抗生素治療
- 靜脈治療
- 骨骼治療
- 標靶治療
- 注射
- 輸血
- 紅細胞生成刺激劑
- 免疫療法

我們重視您的舒適及體驗

愉快且舒適的治療環境有助提高醫療體驗及治療效果。我們的中心注重私隱及舒適，以確保您在整個治療過程中都能感到安心及滿意。

綜合治療

除專業輸注服務外，我們還關注您的整體健康。我們提供全面的支援服務，包括諮詢及紓緩治療，以促進您的健康及滿足您的其他的健康需要。

Welcome to Chinese Hospital Infusion Center, where your well-being is our top priority!

At our center, we take every measure to ensure your comfort and provide exceptional care throughout your journey.

What Is Infusion Therapy?

Infusion therapy is a safe method for administering medications or fluids that cannot be taken orally. Instead, they are delivered through a flexible tube (catheter) or needle, typically inserted into a vein or just beneath the skin—most commonly on your arm or chest; this is referred to as the infusion site.

Expert Nursing Team

Our multilingual nursing team are not only highly skilled in drug infusion therapy but also possess specialized knowledge in the treatment of cancers and various other medical conditions. You can have complete confidence in our team to deliver the highest level of care during your visit.
